

# What is a Fraser Salmon Engagement Framework?

**A Fraser Salmon Engagement Framework is all the information collected to date summarized into components and related strategies.**

## **Why is it needed?**

- A mass of info. has been gathered on co management during Roadmap( issues, recc., other processes..Treaties)
- Info. needs to be organized into manageable parts or components
  - *Components can be framed as issues or questions*
- Need to develop strategies to address the components

# Fraser Salmon Engagement Framework – Strategies

## Components:

### Agreement template

- How do we develop a draft agreement?
  - *Strategy: Roadmap participants identify essential ingredients for a management agreement*
- What are the steps involved in preparing for leadership participation - First Nations and DFO ?
  - *Strategy: Roadmap participants id. protocols for reviewing, negotiating and ratifying a man. agreement*

### Communications

- How do we communicate about this Engagement Framework?
  - *Strategy: Roadmap participants identify key messages .....*

# Fraser Salmon Engagement Framework – Strategies

## Components:

### Consultative Fraser Management Arrangements

- How should First Nations be considered who are not prepared to negotiate at a watershed level ?
  - Strategy:?

### Other negotiations: BC & Douglas Treaties, court mandated negotiations

- How should these be considered (potential impacts)?
  - Strategy:?

### Other co management processes: DFO/FNFC, ITO etc...

- How considered (duplicating effort)?
  - Strategy:?

### Other?
