

A weekly Aboriginal fisheries newsletter for  
fisheries representatives and their organizations

## Upcoming FRSSI Workshops

Executive Airport Plaza, 7311 Westminster Highway, Richmond BC

DFO will be hosting 2 workshops this summer on FRSSI (the Fraser River Sockeye Spawning Initiative) at the Executive Airport Plaza in Richmond, BC. The purpose of these workshops will be to concentrate on the process of decision making in relation to the FRSSI process.

Please note that these workshops are not to discuss escapement goals. The workshops will aim to provide participants with an understanding about how Total Allowable Mortality (TAM) rules are used in season to set escapement goals, and subsequently determine Total Allowable Catches (TAC). DFO will be open to receiving feedback on the FRSSI process itself from workshop participants.

The first workshop will be for First Nations only.

It is being held on **Monday, June 20th, 2011.**

The second workshop will be a multi-sector meeting (commercial, recreational, First Nations, and environmental participants). It is being held on

**Wednesday, July 6th, 2011.**

*Attendees are responsible for making their own travel and accommodation arrangements. A block of rooms has been booked at the Executive Airport Plaza Hotel under the group name "Fraser River Aboriginal Fisheries Secretariat" (rates are between \$119 and \$125 + tax, includes free internet and overnight parking). Guests are responsible for full payment of room, tax and incidental charges. Individual reservations can be cancelled up to 4:00pm the day prior to travel. Hotel contact: 604-278-5555. **Please RSVP to info@frafs.ca.***

## UPCOMING FISHERIES MEETINGS

**May 8-10, 2012:** Prince George, BC

## Fraser Salmon Roadmap

Thunderbird Hall, 1420 Weiwaikum Road, Campbell River BC

The next Fraser Salmon Roadmap meeting will be held on **Wednesday, June 22nd and Thursday, June 23rd, 2011** at the Thunderbird Hall in Campbell River, BC.

Both First Nations and DFO have identified moving toward fisheries co-management (or joint management) as a key priority, and the Roadmap initiative is aimed at building an innovative co-management structure, process, and agreement between DFO and First Nations on Fraser River salmon.

The Campbell River meeting will provide an opportunity for First Nations and DFO participants to discuss the scope, potential elements, and outline of a co-management agreement, as well as the principles and next steps for building the content of an agreement.

Draft agendas and background documents and materials are being sent to First Nations through the FRAFS email distribution list, and are posted on the FRAFS website at [www.frafs.ca](http://www.frafs.ca). Attendees are responsible for making their own travel and accommodation arrangements. If you plan to attend, **please RSVP to info@frafs.ca.**
